9 Attorneys for Plaintiff

10 Scott Serio

11 **UNITED STATES DISTRICT COURT**

12 **DISTRICT OF NEVADA**

13 SCOTT SERIO,

14 Plaintiff,

15 v.

16 PREGAME LLC and RANDALL JAMES
17 BUSACK,

18 Defendants.

19 Case No.: 2:21-cv-01940-JAD-NJK

20 **DECLARATION OF TREY A. ROTHELL
21 IN SUPPORT OF PLAINTIFF'S MOTION
22 FOR DEFAULT JUDGMENT**

23 I, Trey A. Rothell, declare:

24 1. I am an attorney duly licensed to practice before this Court, and I am counsel for Plaintiff SCOTT SERIO (“Serio”) in the above-captioned matter. I provide this Declaration in support of Serio’s Motion for Entry of a Final Default Judgment Against Defendants Pregame LLC and Randall James Busack (collectively “Defendants”). I have personal knowledge of the facts stated herein, and if called as a witness, I could and would testify competently to the matters set forth herein.

25 2. Defendants have refused to answer, show up or otherwise respond in this case.

26 3. Attached hereto as **Exhibit 1** is Defendants’ website on October 25, 2022, showing the Work still on the website.

1 4. Injunctive relief is warranted because Defendants have refused to respond to
2 Counsel or the Court, and due to their lack of a response, there is a chance it could infringe again
3 in the future.

4 5. Serio has incurred \$10,608.70 in attorney's fees and costs.

5 6. Attached as **Exhibit 2** is our invoice that details the costs incurred by Randazza
6 Legal Group, PLLC as local counsel for this matter.

7 7. Attached as **Exhibit 3** is Plaintiff's Primary Counsel's invoice that details the costs
8 incurred by SRIPLAW, P.A., in connection with this matter.

9 8. Though the matter was uncontested, considerable time was spent investigating the
10 factual circumstances of the matter, drafting the notice letters to Defendants, drafting the
11 Complaint in this matter, obtaining the Motion for entering Default Judgment, and corresponding
12 Declarations.

13 9. Serio has incurred \$676.20 in costs.

14 10. Members of Randazza Legal Group, including myself, have spent considerable
15 time on this matter. To date, we have accumulated approximately 10.3 hours in this matter.

16 11. Based on Randazza Legal Group's cumulative billing rate, Serio has incurred
17 \$2,755.00 in attorneys' fees.

18 12. Based on SRIPLAW's cumulative billing rate, Serios has incurred \$7,177.50 in
19 attorneys' fees.

20 13. Jonah Grossbardt of SRIPLAW had a billing rate of \$450.00 per hour in 2021 which
21 increased to \$525.00 per hour in 2022. This is a reasonable rate for an attorney of his experience.
22 He expended 0.9 hours in connection with this matter.

23 14. Matthew Rollin of SRIPLAW had a billing rate of \$300 which later increased to
24 \$325 beginning December 1, 2021. This is a reasonable rate for an attorney of his experience. He
25 expended 13.1 hours in connection with this matter.

1 15. SRIPLAW's Paralegal Jamie James had a billing rate of \$200.00 per hour which
2 later increased to \$275.00 per hour in 2022. This is reasonable rate for a paralegal of her
3 experience. She expended 11.0 hours in connection with this matter.

4 16. SRIPLAW's Paralegal Lindsey Colyer had a billing rate of \$200.00 per hour. This
5 is reasonable rate for a paralegal of her experience. She expended 0.1 hours in connection with
6 this matter.

7 17. SRIPLAW's Assistant, Connor William has a billing rate of \$175.00 per hour
8 which is reasonable rate for a legal assistant of his experience. He expended 0.2 hours in
9 connection with this matter.

10 18. Attorney Ronald D. Green, Jr. of Randazza Legal Group, PLLC has a JD from
11 University of Pittsburgh School of Law and is a Nevada-licensed attorney with 22 years of
12 litigation experience. He has spent most of his career as an intellectual property litigator. Mr.
13 Green's customary billing rate is \$600 per hour. He worked 1.1 compensable hours on this matter.

14 19. I earned my JD at the Florida State University College of Law, and I am licensed
15 to practice law in the State of Nevada. I have been a licensed attorney for approximately 1 year;
16 however, prior to becoming licensed, I worked for Randazza Legal Group as a law clerk for 3
17 years, and I have an additional 4 years of experience as a paralegal. My billing rate is \$325 per
18 hour, and I worked 4.4 compensable hours on this matter.

19 20. Randazza Legal Group's paralegal Suzanne Levenson is a paralegal with
20 approximately 8 years of legal experience. Her billing rate is \$175 per hour. She worked 3.4
21 compensable hours on this matter.

22 21. Randazza Legal Group's paralegal Brittani Holt is a paralegal with approximately
23 12 years of legal experience. Her billing rate is \$175 per hour. She worked 1.4 compensable hours
24 on this matter.

25 22. With the above billing rates, Serio has incurred attorneys' fees of at least \$9,932.50
26 in connection with the pursuit of Serio's claims against Defendants.

23. These fees are reasonable because they reflect the market rate for services of similar quality and nature in the local area.

24. Serio is entitled to interest calculated from the date of infringement of May 5, 2017. As of the date of infringement, the interest rate was 1.10 percent. Attached as **Exhibit 4** is a true and correct copy of a table of federal interest rates from the date the infringement was discovered, which I downloaded on November 10, 2022, from the Federal Reserve Board's website at <https://fred.stlouisfed.org/series/DGS1>.

25. For purposes of setting the post-judgment interest rate under 28 U.S.C. § 1961, the average 1-year constant maturity Treasury yield through November 8, 2022, was 4.77 percent. Attached as **Exhibit 5** is a true and correct copy of a table of current federal interest rates, which I obtained from the Federal Reserve Board's website at <https://www.federalreserve.gov/releases/h15/> (printout of “Treasury Constant Maturities,” displaying “1-year Treasury constant maturity”). Also attached at **Exhibit 6** is an explanation of how to obtain the information, from <http://www.uscourts.gov/services-forms/fees/post-judgement-interest-rate>.

26. My office caused a copy of Serio's Motion to be mailed to Defendants on November 10, 2022, at Mr. Randall J. Busack, 5860 South Pecos Road, Suite 400, Las Vegas, NV 89120. Serio has served Defendants with its requested damage amount with its counsel's service of this motion on Defendants.

I declare under perjury under the laws of the United States of America that the foregoing is true and correct.

Executed on November 10, 2022.

/s/ Trey A. Rothell

Irap 2017 Kentucky Derby Odds

05/06/2017 7:32 AM · [BRANDON WATSON](#)

This year's Kentucky Derby has a couple of leaders at the front of the pack and then several other horses that seem to be in a large group that are drawing some long odds Irapis one of the 2017 Kentucky Derby Longshots The Kentucky Derby will begin at 6:34pm EST Saturday from Churchill Downs in Louisville, Kentucky.

Trainer Doug F. O'Neill

Jockey Mario Gutierrez

Morning Line Odds 20-1

Current Odds 39-1
kentuckyderby.com of 10:30

a.m. Saturday)

Kentucky Derby Facts

- The biggest "longshot" was in 1913 when Donerail paid out at 91.45-1 odds.
- The highest attendance ever was in 2015 with 170,513 people. Last year there was 167,227 people.
- An "official" Mint Julep at the Kentucky Derby is made with "Early Times" whiskey.
- New York sports columnist Bill Corum coined the phrase "Run for the Roses."

Kentucky Derby Records

Winning Jockey: Both Eddie Arcaro and Bill Hartack have recorded five wins each. For Arcaro you need to travel back to 1938 (final win was in 1952) for his first of five wins and for Hartack back to 1957 (final win was in 1969).

Winning Trainer: Ben A Jones worked together with jockey Eddie Arcaro spanning from 1938 to 1952 and collected a total of six wins at the Kentucky Derby.

Winning Owner: Over a course of 27 years, Calumet Farm had a total of eight Derby wins (1941, 1944, 1948, 1949, 1952, 1957, 1958).

Winning Length: There is a tie between two horses from the 1940s, Whirlaway and Assault. Both captured the Kentucky Derby with a margin of eight lengths (1941 for Whirlaway and 1946 for

Assault).

Winning Time: Probably one of the most famous horses in history, Secretariat, is the holder of this record. In 1973 he ran the Derby in 1:59:40 and is the only horse to ever run the 1 1/4 mile race in under two minutes.

Footnotes

1. As of March 1, 2016, the daily effective federal funds rate (EFFR) is a volume-weighted median of transaction-level data collected from depository institutions in the Report of Selected Money Market Rates (FR 2420). Prior to March 1, 2016, the EFFR was a volume-weighted mean of rates on brokered trades.
2. Weekly figures are averages of 7 calendar days ending on Wednesday of the current week; monthly figures include each calendar day in the month.
3. Annualized using a 360-day year or bank interest.
4. On a discount basis.
5. Interest rates interpolated from data on certain commercial paper trades settled by The Depository Trust Company. The trades represent sales of commercial paper by dealers or direct issuers to investors (that is, the offer side). The 1-, 2-, and 3-month rates are equivalent to the 30-, 60-, and 90-day dates reported on the Board's Commercial Paper Web page (www.federalreserve.gov/releases/cp/).
6. Financial paper that is insured by the FDIC's Temporary Liquidity Guarantee Program is not excluded from relevant indexes, nor is any financial or nonfinancial commercial paper that may be directly or indirectly affected by one or more of the Federal Reserve's liquidity facilities. Thus the rates published after September 19, 2008, likely reflect the direct or indirect effects of the new temporary programs and, accordingly, likely are not comparable for some purposes to rates published prior to that period.
7. Rate posted by a majority of top 25 (by assets in domestic offices) insured U.S.-chartered commercial banks. Prime is one of several base rates used by banks to price short-term business loans.
8. The rate charged for discounts made and advances extended under the Federal Reserve's primary credit discount window program, which became effective January 9, 2003. This rate replaces that for adjustment credit, which was discontinued after January 8, 2003. For further information, see www.federalreserve.gov/boarddocs/press/bcreg/2002/200210312/default.htm. The rate reported is that for the Federal Reserve Bank of New York. Historical series for the rate on adjustment credit as well as the rate on primary credit are available at www.federalreserve.gov/releases/h15/data.htm.
9. Yields on actively traded non-inflation-indexed issues adjusted to constant maturities. The 30-year Treasury constant maturity series was discontinued on February 18, 2002, and reintroduced on February 9, 2006. From February 18, 2002, to February 9, 2006, the U.S. Treasury published a factor for adjusting the daily nominal 20-year constant maturity in order to estimate a 30-year nominal rate. The historical adjustment factor can be found at www.treasury.gov/resource-center/data-chart-center/interest-rates/. Source: U.S. Treasury.

10. Yields on Treasury inflation protected securities (TIPS) adjusted to constant maturities. Source: U.S. Treasury. Additional information on both nominal and inflation-indexed yields may be found at www.treasury.gov/resource-center/data-chart-center/interest-rates/.

11. Based on the unweighted average bid yields for all TIPS with remaining terms to maturity of more than 10 years.

Note: Current and historical H.15 data, along with weekly, monthly, and annual averages, are available on the Board's Data Download Program (DDP) at www.federalreserve.gov/datadownload/Choose.aspx?rel=H15). Weekly, monthly and annual rates are averages of business days unless otherwise noted.

Description of the Treasury Nominal and Inflation-Indexed Constant Maturity Series

Yields on Treasury nominal securities at “constant maturity” are interpolated by the U.S. Treasury from the daily yield curve for non-inflation-indexed Treasury securities. This curve, which relates the yield on a security to its time to maturity, is based on the closing market bid yields on actively traded Treasury securities in the over-the-counter market. These market yields are calculated from composites of quotations obtained by the Federal Reserve Bank of New York. The constant maturity yield values are read from the yield curve at fixed maturities, currently 1, 3, and 6 months and 1, 2, 3, 5, 7, 10, 20, and 30 years. This method provides a yield for a 10-year maturity, for example, even if no outstanding security has exactly 10 years remaining to maturity. Similarly, yields on inflation-indexed securities at “constant maturity” are interpolated from the daily yield curve for Treasury inflation protected securities in the over-the-counter market. The inflation-indexed constant maturity yields are read from this yield curve at fixed maturities, currently 5, 7, 10, 20, and 30 years.

Last Update: November 09, 2022

Post Judgment Interest Rate

Interest is allowed on most judgments entered in the federal courts from the date of judgment until paid.

The types of judgments generally fall under one of three statutes:

1. [28 U.S.C. 1961 \(/services-forms/fees/post-judgement-interest-rate/28-usc-1961-post-judgment-interest-rates\)](/services-forms/fees/post-judgement-interest-rate/28-usc-1961-post-judgment-interest-rates), which governs civil and bankruptcy adversary judgment interest;
2. [18 U.S.C. 3612 \(f\)\(2\) \(/services-forms/fees/post-judgement-interest-rate/18-usca-ss-3612-post-judgment-interest-rates\)](/services-forms/fees/post-judgement-interest-rate/18-usca-ss-3612-post-judgment-interest-rates), which governs criminal judgments or sentences; and
3. [40 U.S.C. 3116 \(/services-forms/fees/post-judgement-interest-rate/40-usc-3116-post-judgment-interest-rates\)](/services-forms/fees/post-judgement-interest-rate/40-usc-3116-post-judgment-interest-rates), which governs deficiency judgments in condemnation proceedings.

These statutory references should be checked with reliable statutory data bases such as Westlaw, Lexis, or other appropriately maintained sources of the U.S. Code for the latest changes.

Under each of the above statutes the rate of interest used in calculating the amount of post judgment interest is the weekly average 1-year constant maturity (nominal) Treasury yield, as published by the Federal Reserve System. Prior to December 21, 2000 the rate of interest allowed under the statutes cited above was based on the coupon issue yield equivalent (as determined by the Secretary of the Treasury) of the average accepted auction price for the last auction of 52 week t- bills settled immediately preceding entry of the judgment. The way the rate is used differs under each of the cited statutes, so those sections should be reviewed to determine how to apply it to any particular judgment.

Current Applicable Rates

Effective October 11, 2016 the Federal Reserve Board ceased publication of the following interest rates on its Selected Interest Rates (H.15) statistical release: Eurodollar deposits, corporate bonds, state and local bonds, and conventional mortgages. The interest rate swaps continued to be published for two more weeks and was discontinued on October 31, 2016.

A list of sources for the discontinued data is available
at: http://www.federalreserve.gov/releases/h15/h15_technical_qa.htm
[\(https://www.federalreserve.gov/releases/h15/h15_technical_qa.htm\)](https://www.federalreserve.gov/releases/h15/h15_technical_qa.htm)

The Board will continue to publish the following interest rates in the H.15 release: federal funds (effective), commercial paper, bank prime loan, discount window primary credit, and U.S. Treasury

securities.

Additionally, as of October 11, 2016, the Board no longer publishes the H.15 in PDF format or publish weekly and monthly averages directly on the H.15. Weekly and monthly averages continue to be available through the Board's [Data Download Program](#) (<https://www.federalreserve.gov/datadownload/Choose.aspx?rel=H.15>).

The H.15 will be published at 4:15pm every business day (excluding holidays).
